

MECS Enrolment Process

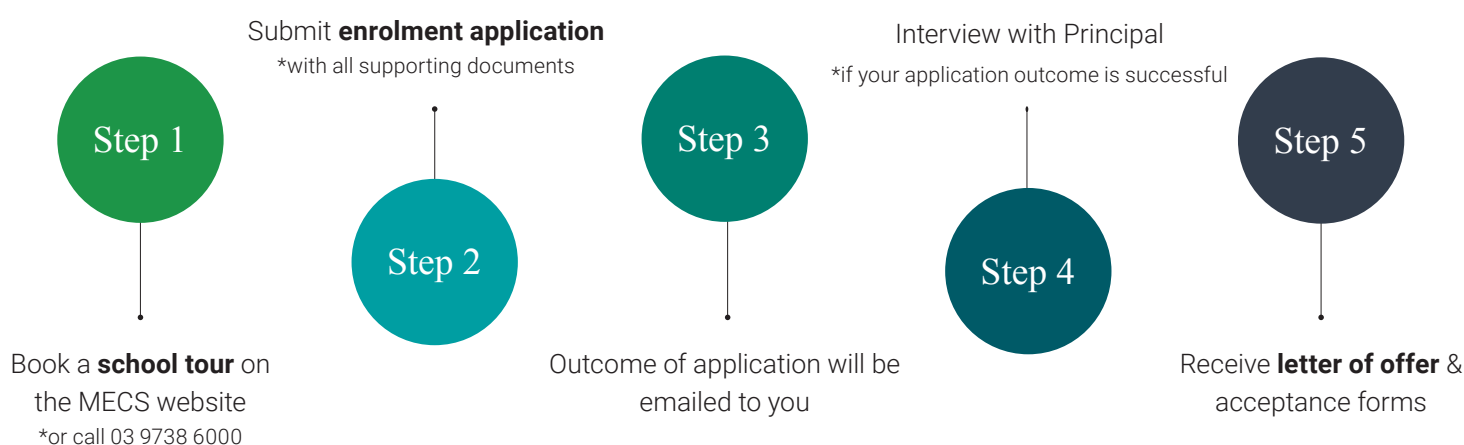

Thank you for your enrolment interest at Mount Evelyn Christian School. As we get to know your family during the enrolment process, we hope to gain an insight into what you know and believe about Christian education, and how your children best learn at school. Choosing the right school for your children's education is a big decision! By the stage of enrolment, we trust that you would have also read through our Focus on Identity booklet in our school information pack.

Please note that not all applications received will automatically result in an enrolment position. Priority is given to Christian families and siblings of current students. All applications are processed in accordance with the school's enrolment policy.
